

I-AM GreenStars Opportunities (R) T

Fund Description

Dynamic Allocation - The I-AM GreenStars Opportunities pursues an active investment policy and is not restricted by a benchmark. The equity exposure may be up to 100% of the fund's assets and is adjusted to the respective market environment. Moreover corporate bonds can also be added to the portfolio. Derivative instruments may be used as part of the investment strategy and for hedging purposes.

Quality & Sustainability - Regarding the issuer selection, the fund management pays particular attention to the characteristics of quality and sustainability, i.e. it seeks to invest in high-quality issuers that also meet certain environment, social and corporate governance minimum standards.

YTD	2.73 %	1 year	-8.05 %	since incept.	17.48 %
------------	---------------	---------------	----------------	----------------------	----------------

Past performance figures and simulated performance do not constitute any reliable indicator of future performance. Every capital investment bears a risk. Prices may rise as well as fall. Issue and redemption fees have not been taken into account when calculating performance. Performance data have been calculated using the OeKB method. In case of an investment amount of 1,000 EUR, the investor will be required to pay a subscription fee of max. 52.50 EUR. This will accordingly diminish the performance of his investment. Any custody charges will further reduce the investor's return. Calculation provided by Cyberfinancials Datenkommunikation GmbH.

This marketing document is provided for non-binding information purposes only and does not represent any offering or invitation to purchase or sell units in an investment fund, and nor should it be deemed an invitation to submit an offer for conclusion of any contract on investment services or collateral performance. This document cannot replace the advice of your personal investment advisor.

The basis for the purchase of investment units is the presently valid prospectus, the current versions of the key investor document ("KID" or "KIID") as well as the annual report and, if older than eight months, the semi-annual report. Potential investors may obtain the current German-language versions free-of-charge from Raiffeisen Kapitalanlage-Gesellschaft m.b.H., Mooslackengasse 12, A-1190 Wien, and from the registered seat of the paying agent and information office in Germany, Raiffeisen Bank Internationa AG, Zweigstelle Deutschland, Wiesenhüttenplatz 26, D-60329 Frankfurt am Main. They are also available at www.rcm.at. PAYING AGENCY: FR: Société Générale, 29, boulevard Haussmann, 75009 Paris.

Past performance figures and simulated performance do not constitute any reliable indicator of future performance. Fund-based investments are subject to general economic risks as well as fluctuations in value which may result in losses – and even the total loss of the capital invested. Express reference is made to the detailed risk notices provided in the prospectus.

All performance figures indicated are gross performance figures. These include any costs arising at the fund level and assume the reinvestment of any distributions.

The "Fund ESG Quality Score" measures the ability of underlying holdings to manage key medium to long term risks and opportunities arising from environmental, social, and governance factors. It is based on MSCI ESG Ratings and is measured on a scale of 0 to 10 (worst to best).

The MSCI Climate Change Rating evaluates companies that both provide solutions to climate change and minimize the associated risks. ©2023 MSCI ESG Research LLC. Details on the metrics at: www.msci.com

The SDG Impact Rating measures the extent to which companies contribute to the achievement of the United Nations (UN) Sustainable Development Goals (SDGs) framework. Contribution to the Paris Climate Agreement measures the fund's implicit temperature and assesses how it impacts the goal of limiting global warming. ©2023 ISS ESG. Details on metrics at: www.issgovernance.com

Risks

- Risk of decline in unit value due to general market risks (e.g. price & interest rate fluctuation, currency or liquidity risks)
- Specific price risk for individual countries, companies and sectors
- Credit rating and default risk for individual issuers and sectors
- Use of derivatives, with resulting potential increased opportunities, as well as increased loss risks
